

## ACCEPT WOOCOMMERCE PLUGIN INSTALLATION GUIDE

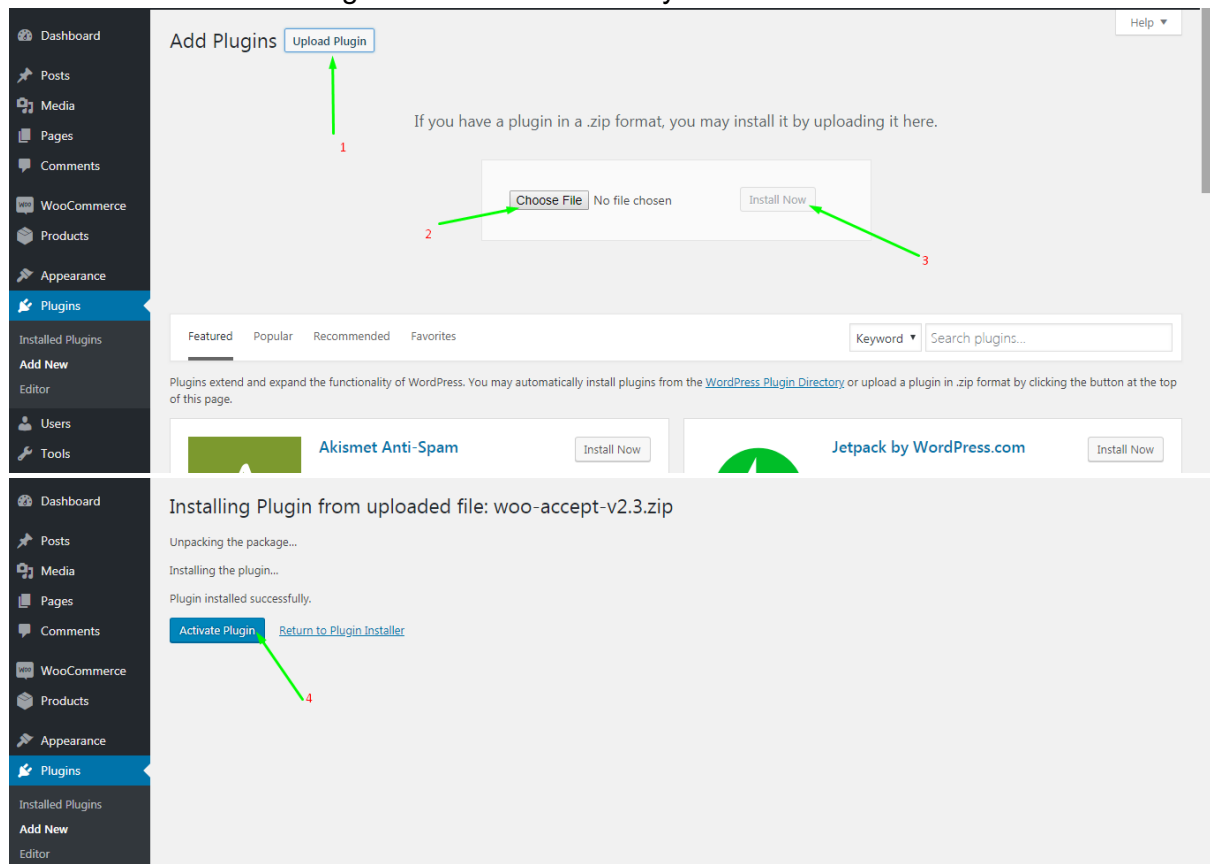

### Step 1: Open plugins page

- Browse to your WordPress admin panel → plugins → Add new.

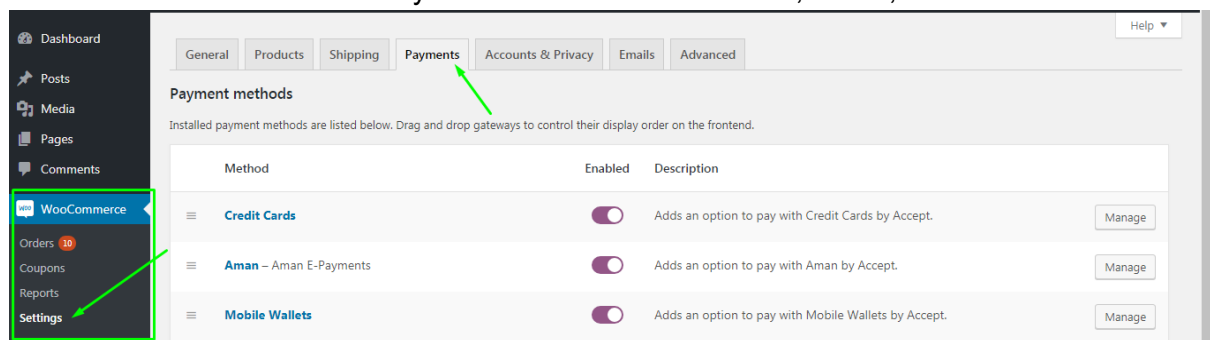

### Step 2: Add plugin

- Click “Upload Plugin” then “Choose File”
- Browse your file system, choose the plugin in “.zip” format and click “Install Now”
- Click “Activate Plugin” after it is successfully installed

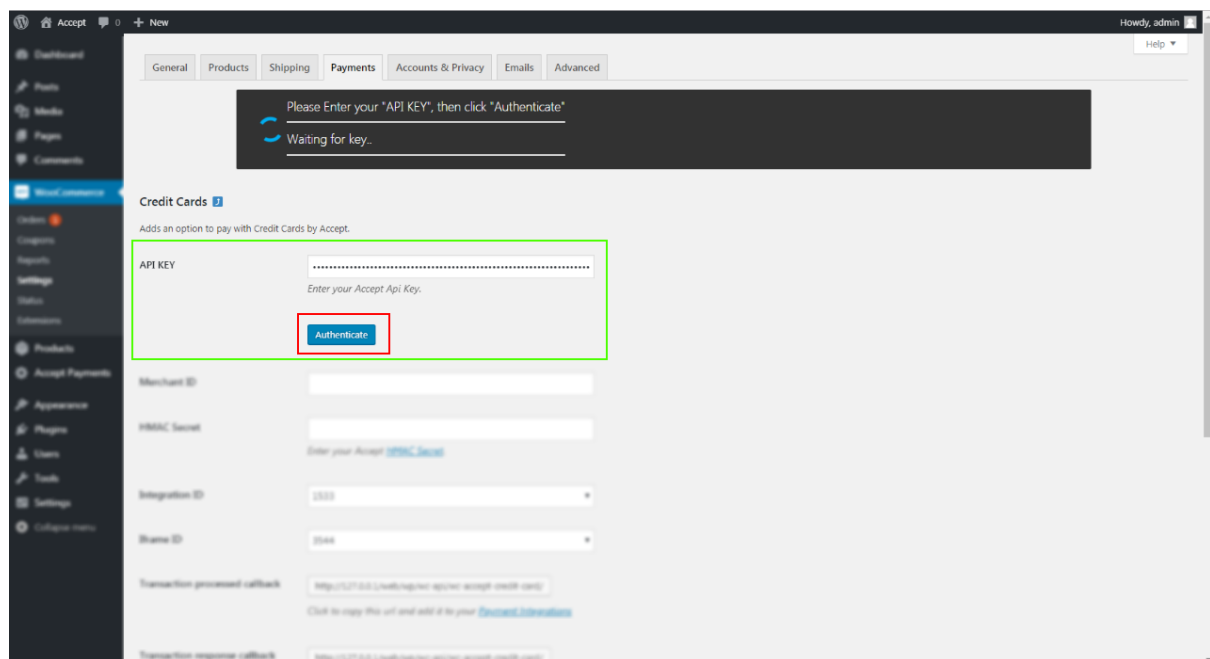

### Step 3: Enable payment methods

- Browse to WooCommerce → Settings → Payment
- You will find “3” new Payment methods “Credit Cards, Aman, Mobile Wallets”

### Step 4: Enter account data

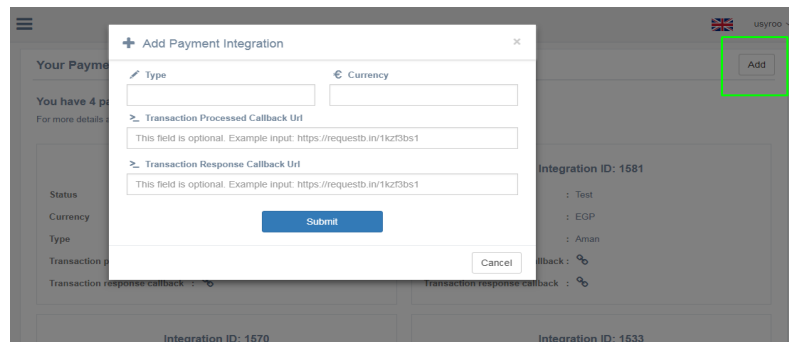

- Choose the desired payment method by clicking “Manage”
- Fill in account inputs first:
  - “API Key”
  - “HMAC Secret”: can be found in the settings page in Accept Dashboard.

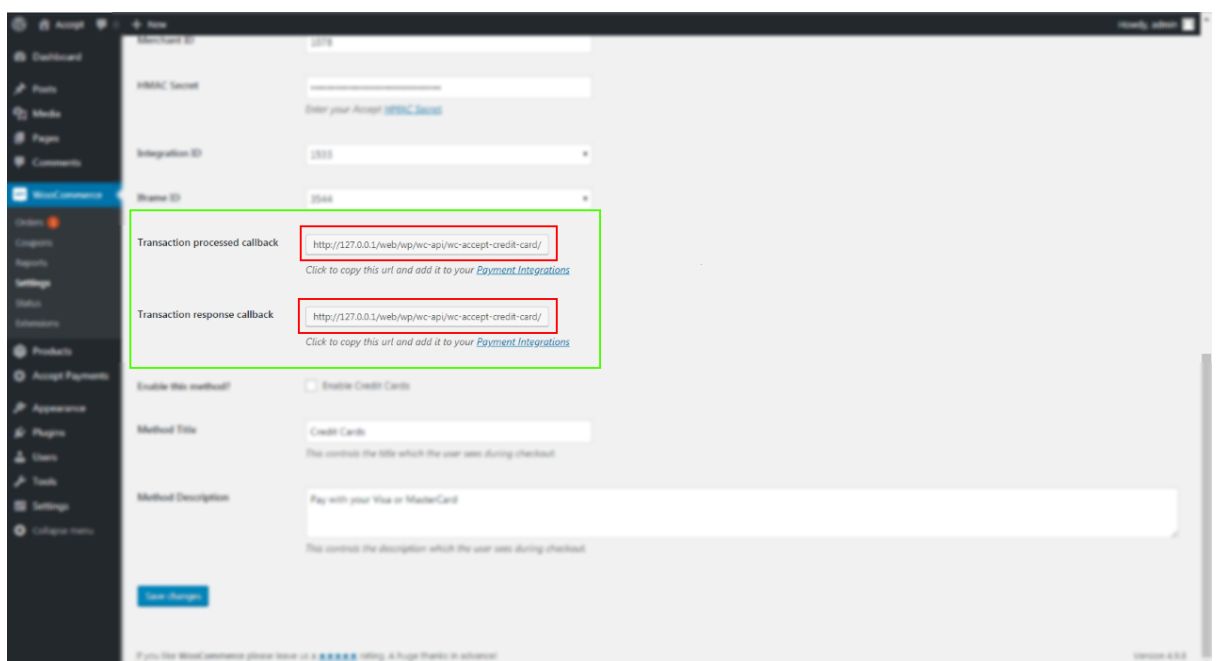

- A success message will appear if correct data is entered

#### Step 5: Set the callback urls

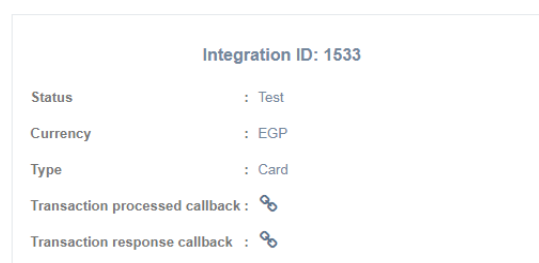

- Head to the Payment integrations page in Accept dashboard and click “Add”.
- Choose the payment method needed and the currency. Please make sure that the currency is the same as the WooCommerce currency.

- Set the transaction processed and transaction response callback urls as shown below

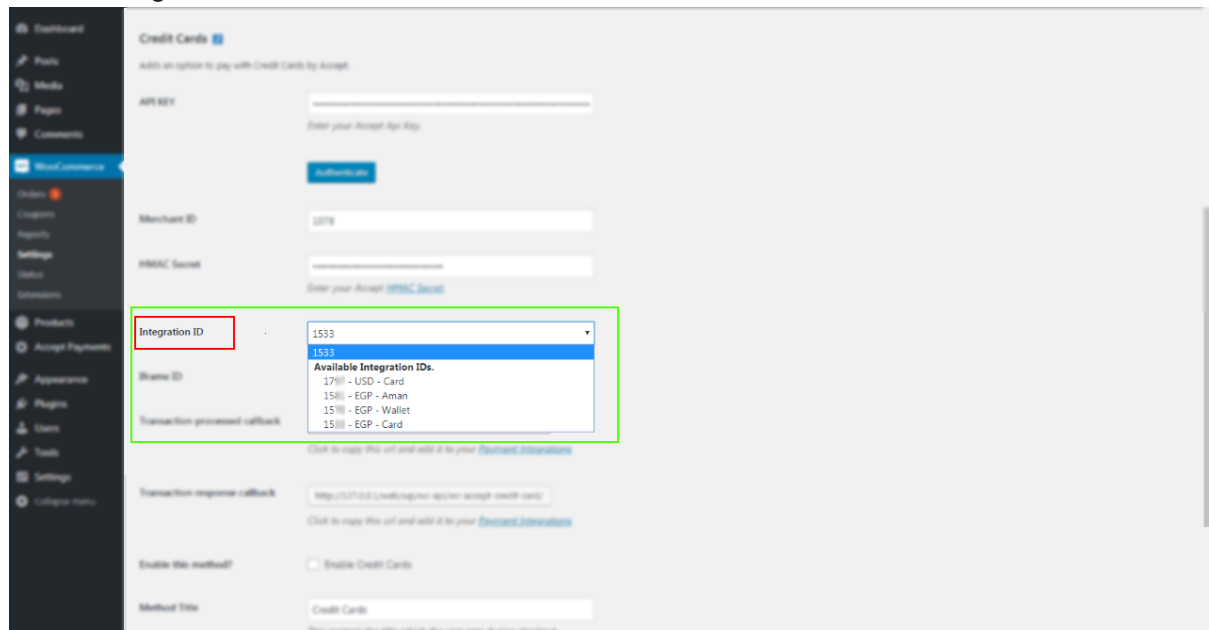

- After submitting, a new payment method will be displayed in the portal

### Step 6: Configure the payment integration

- Head back to WooCommerce admin and reload the page in order to refresh the list of integration IDs

Credit Cards

Add an option to pay with Credit Cards by Accept.

API KEY

Enter your Accept API Key.

[Get API Key](#)

Product	Total
Toy × 1	EGP75.00
<b>Subtotal</b>	EGP75.00
<b>Total</b>	<b>EGP75.00</b>

☒ Online Cards

Pay with your Visa or Master card

### Step 7: Configure the iframe

- For card payments, you will need to choose the ID of the iframe that will be displayed to the paying customer.
- Head to Iframes page in Accept dashboard to view the pre-created ones. You can add new iframes or edit existing ones.
- Choose the ID then click “Save changes”

The screenshot shows the 'New' page in the Accept dashboard. The left sidebar contains navigation links: Dashboard, Payments, Methods, Pages, Comments, New Payments, Payments, Settings, Collections, Problems, Accept Payments, Appearance, Pages, Users, Tools, Settings, and Collapse menu. The main content area is titled 'New' and has a 'Authenticate' button. It contains several input fields: 'Merchant ID' (1078), 'HMAC Secret' (masked), 'Integration ID' (1000), and 'Iframe ID' (3544). The 'Iframe ID' dropdown menu is open, showing 'Available Frame IDs.' with options 3512 and 3544. Below the dropdown, there are two 'Transaction processed callback' fields with URLs and a 'Click to copy' button. The 'Enable this method?' checkbox is checked. The 'Method Title' is 'Credit Cards' and the 'Method Description' is 'Pay with your Visa or MasterCard'.
